omnya lab

Selected work 2026

Venice · Dubai

We make images and films of spaces that are not built yet

You send us plans, a 3D model or a photo, and we send back photorealistic images and films you can use to sell a property, present a project or get it approved. It takes days instead of weeks, and it costs a fraction of a traditional render studio.

01

Start from what you have

Plans, a SketchUp or Revit model, an old render or a photo of an empty room. You don’t need to model anything new.

02

Days, not weeks

First views in 1 to 2 days, a whole house in 5 working days, and a complete launch, images and film, within a week.

03

It pays for itself

A traditional studio charges €250 to €800 per image, while a new view with us costs €50 to €90. Sell one unit earlier and the images have paid for themselves.

11	**Casa Cresta** 3D to photo · Reels	Los Angeles

Penthouse Dubai

Downtown Dubai, UAE

Interiors | Details | Film

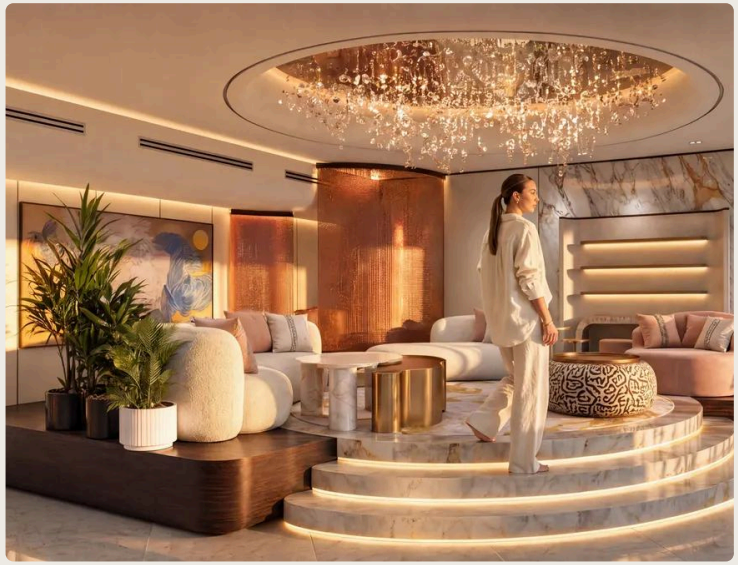

A penthouse in Downtown Dubai, shown room by room before any furniture was ordered, with images and a launch film. Interior design by Davide Algranti.

Watch the film: omnyalab.com/work/penthouse-dubai

Golden hour on the terrace
with the Burj right next door

Samar Residences
Dubai Marina, UAE

Exteriors | Interiors | Film

A residence on the water in Dubai Marina, told as a short film: the tower at sunset, a boat across the marina, an evening inside. Twenty-two images and a 46-second film, made with AI.

Watch the film: omnyalab.com/work/samar

From the marina
to the living room

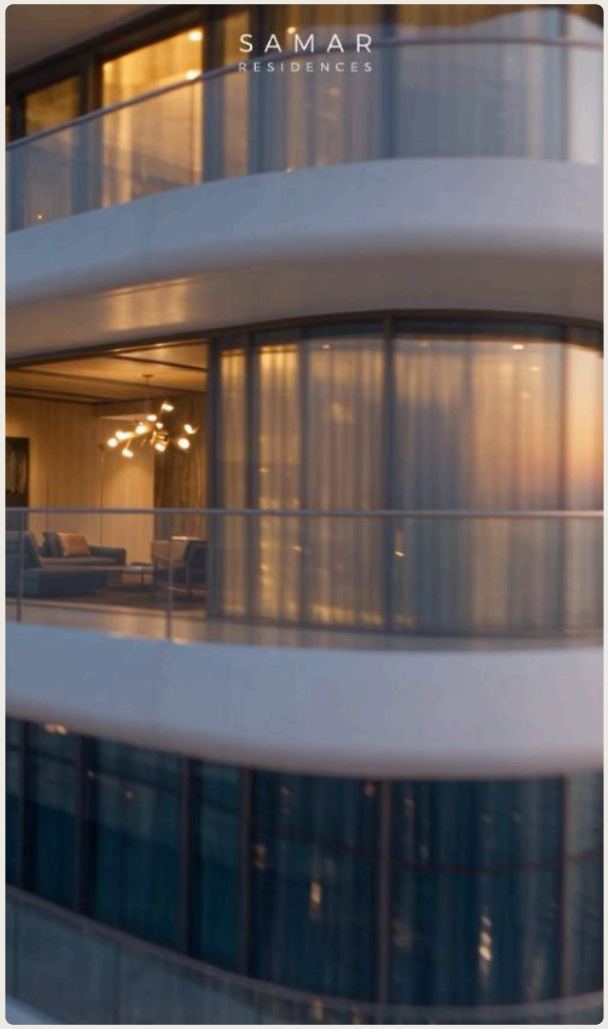

Choose your floor
a tower you can walk into before it's built

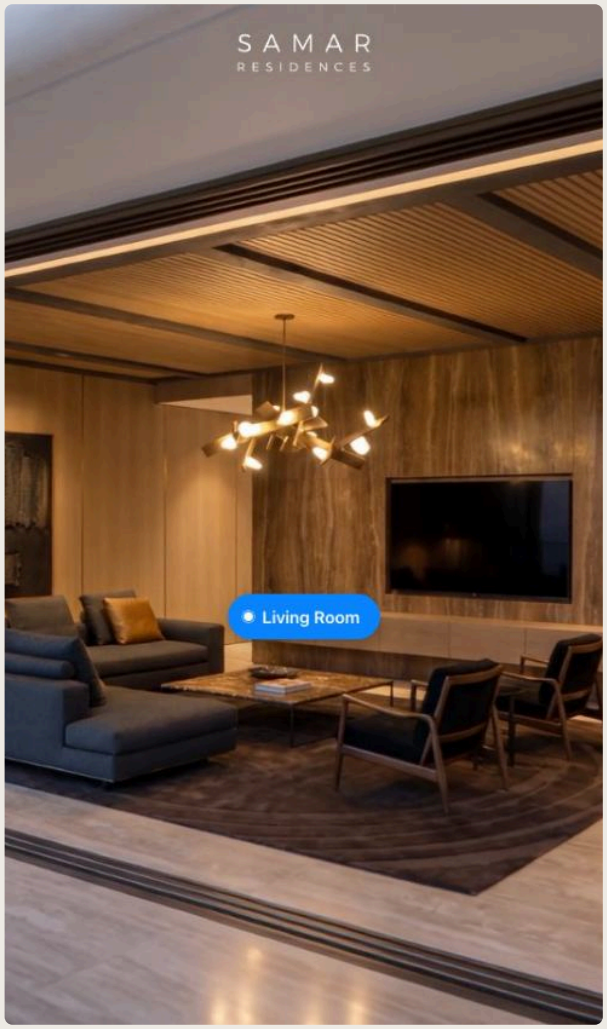

For SAMAR we also built the sales website: you pick a floor on the tower, fly into the apartment and walk from the living room to the bathroom, all made from our own films.

The tower

Flying in

Level 15

Ca’ dei Colli
Prosecco Hills, Italy

Film · Interiors · Exteriors

A stone farmhouse in the Prosecco hills, close to our studio. A short film and a set of images that sell the place and the way of living, not just the square metres.

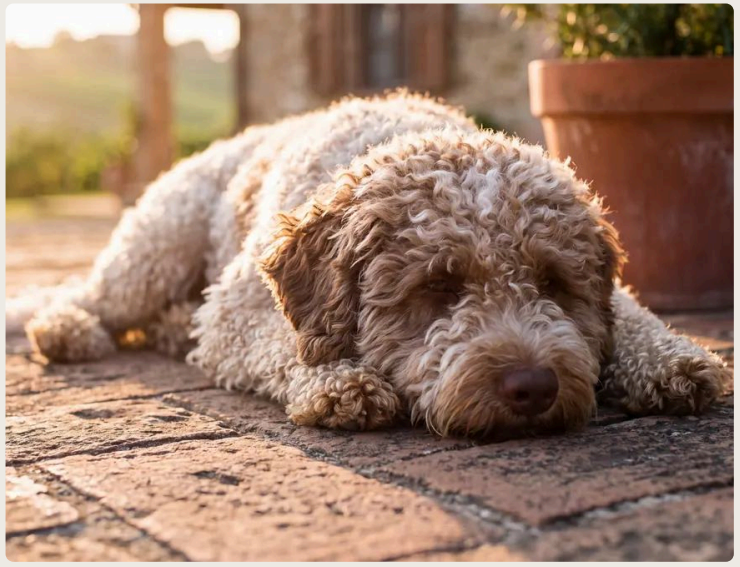

Watch the film: omnyalab.com/work/ca-dei-colli

Where the vineyard
runs into the pool

04

Forest House
Private residence

14 views | Interiors | Exteriors

A private house among redwoods. Fourteen views, from the aerial shot to the walk-in closet, with the same materials and light in every room.

Fourteen views
one consistent house

The same materials and the same light in every room, so the views read as one house and not as fourteen separate renders.

05

Hygeia Grove
Corfu, Greece

24 views | 90-second film

A wellness resort in Corfu. With €1,860 of images and a 90-second film, made before construction started, the architect brought home almost €100,000.

Watch the film: omnyalab.com/work/hygeia-grove

A resort sells on the day you would spend in it

Breakfast, the spa, the fire at night: we showed what a stay feels like, not just the rooms.

Elvira
Business Bay, Dubai

20 views | Office

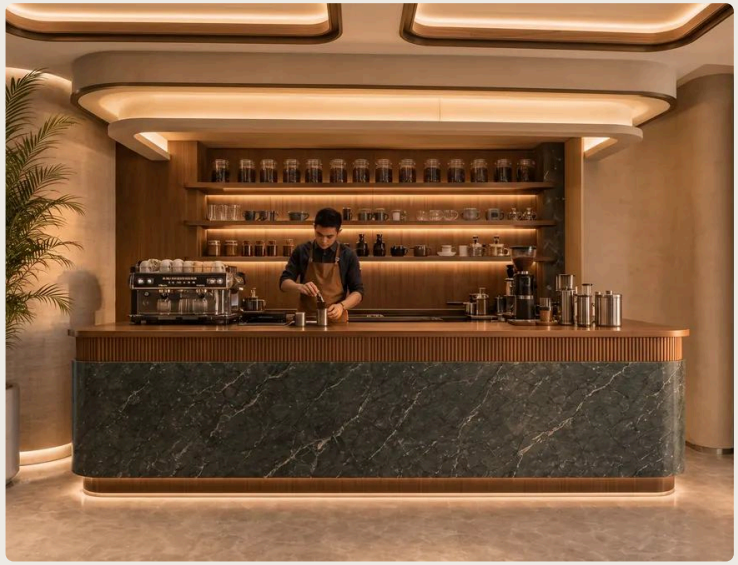

A business centre on the 21st floor of the Binary Tower. Twenty views of the whole floor, all in the same light. Design by Davide Algranti.

An office people actually want to rent

Reception, library, bar and meeting rooms, delivered as one consistent floor.

07

Cavista
Dubai Mall, Dubai

Hospitality | 9 boards

A restaurant concept for Dubai Mall. Nine images to present the idea to the owner before the drawings were final.

Nine images
to sell an idea

Concept images used to present the restaurant to the owner while the drawings were still changing.

Naoshima House
For Alchimia wall systems

Exteriors | Interiors | Film

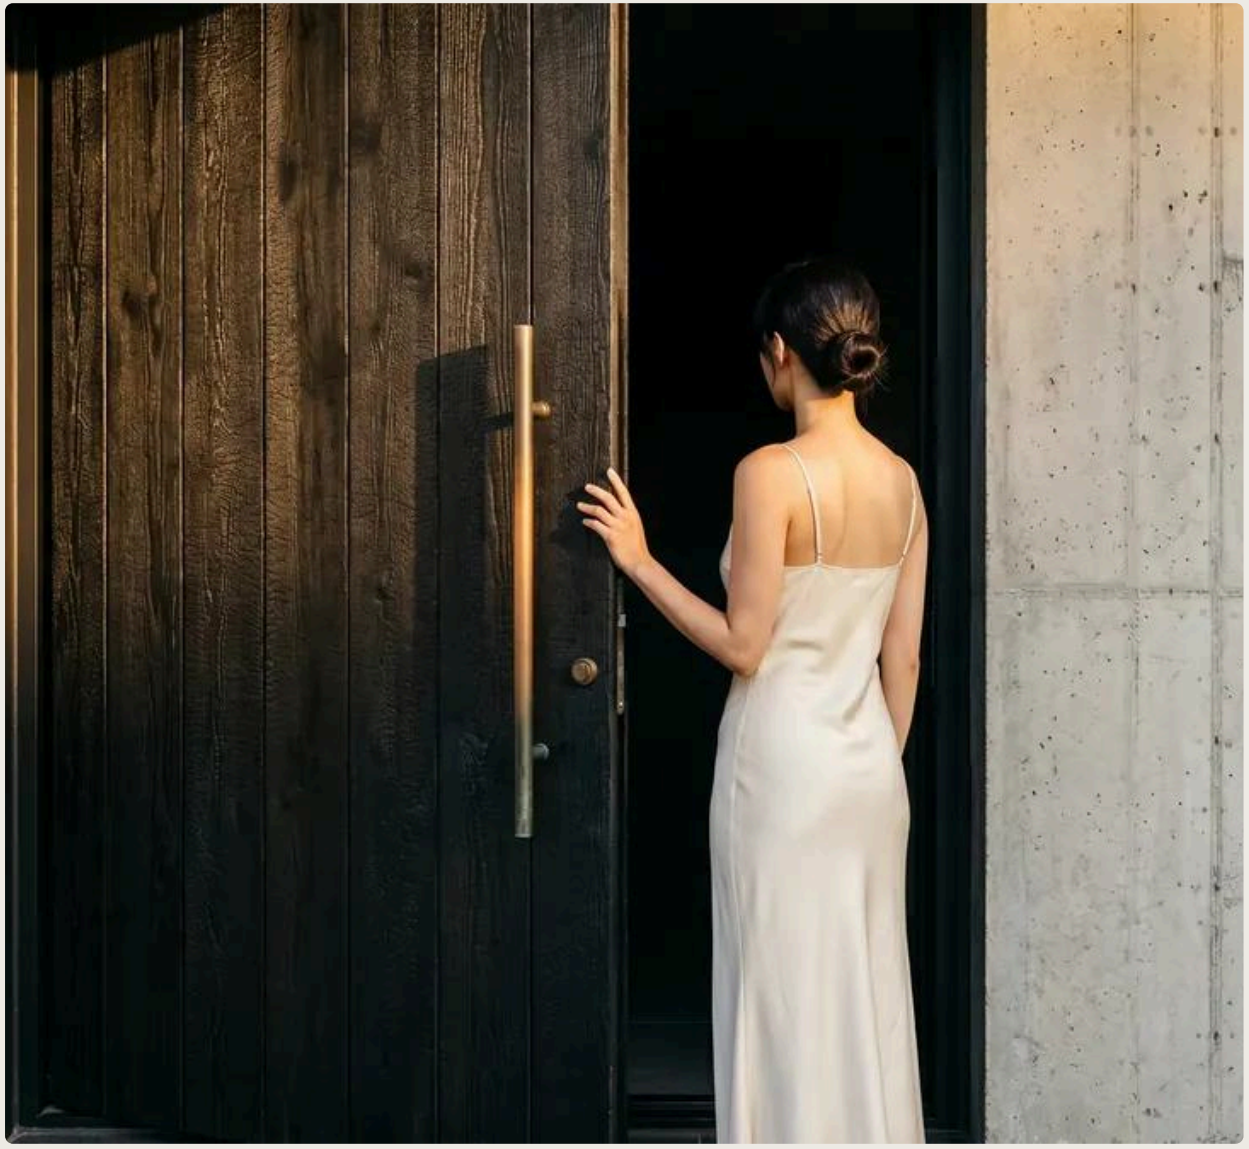

A house on the water designed around Alchimia’s wall panels, where every view shows the product where it belongs.

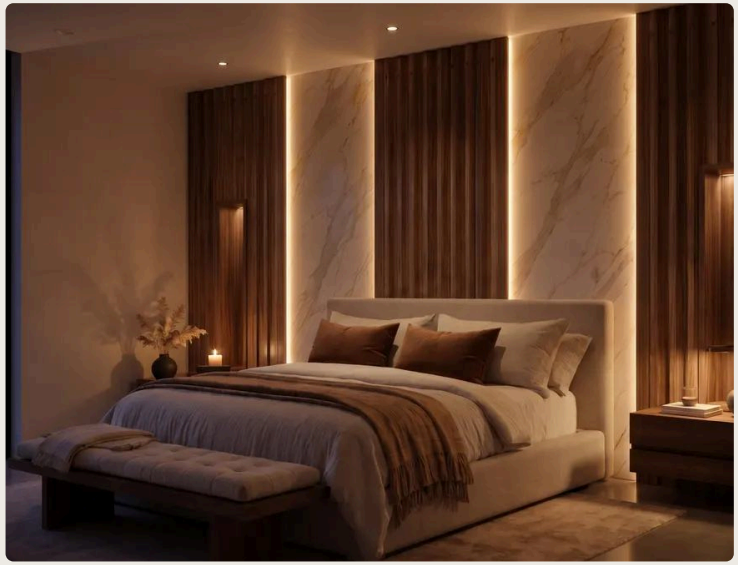

Watch the film: omnyalab.com/work/naoshima-house

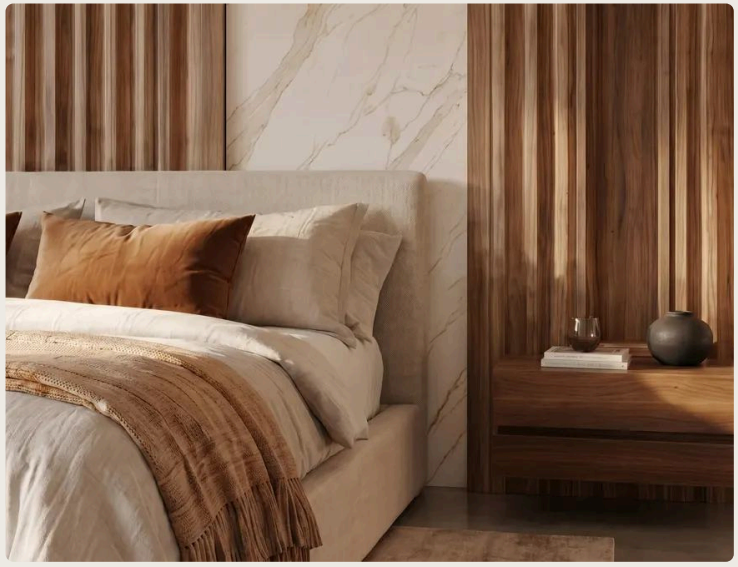

The arrival is the part guests remember

From the drone shot over the bay to the bedroom wall, every view shows the panels in use.

09

The Townhall
Vidor, Prosecco Hills, Italy

Hotel | Interiors | Exteriors | Film

A project to turn a former town hall in Vidor into a hotel, with a new pavilion for the spa, the gym and events. We started from site photos and drawings and delivered the images and a film.

From town hall
to hotel

The same facade
before and after

Our image

DANA Beach House

Our own house

18 views | Clips

DANA is the house we use as our quality benchmark: coral stone, ipe and bronze, with the same light from the pool to the dressing room.

Eighteen views
one beach house

Every surface is named and every view keeps the same materials, which is why the house reads as real from the beach to the bath.

Casa Cresta
Los Angeles

3D to photo

Reels

A house on a ridge above Los Angeles, built first as a rough 3D model and then turned into photos view by view, with the same camera.

We start where you stop
the geometry stays, the rest changes

You send us SketchUp, Revit, a rough 3D or a set of drawings. Proportions and camera angles stay exactly as they are, while we change materials, light and furniture and add the people.

The 3D model

The final image

Casa Cresta, Los Angeles

How a project works
from your files to the final images

01

You send us your files

Floor plans, a 3D model, renders or site photos, plus any references you have. A short call is enough to get started.

02

We agree on the details

Before we start, we send you a short description of each view, with materials, light and furniture, and we begin only once you approve it.

03

First images and changes

You receive a few versions of each view and tell us what to change. We edit only what you ask for.

04

Delivery

You receive 4K images in the formats you need for web, social media and print. We don’t sign them, so you can present them as your own.

How long it takes
in working days

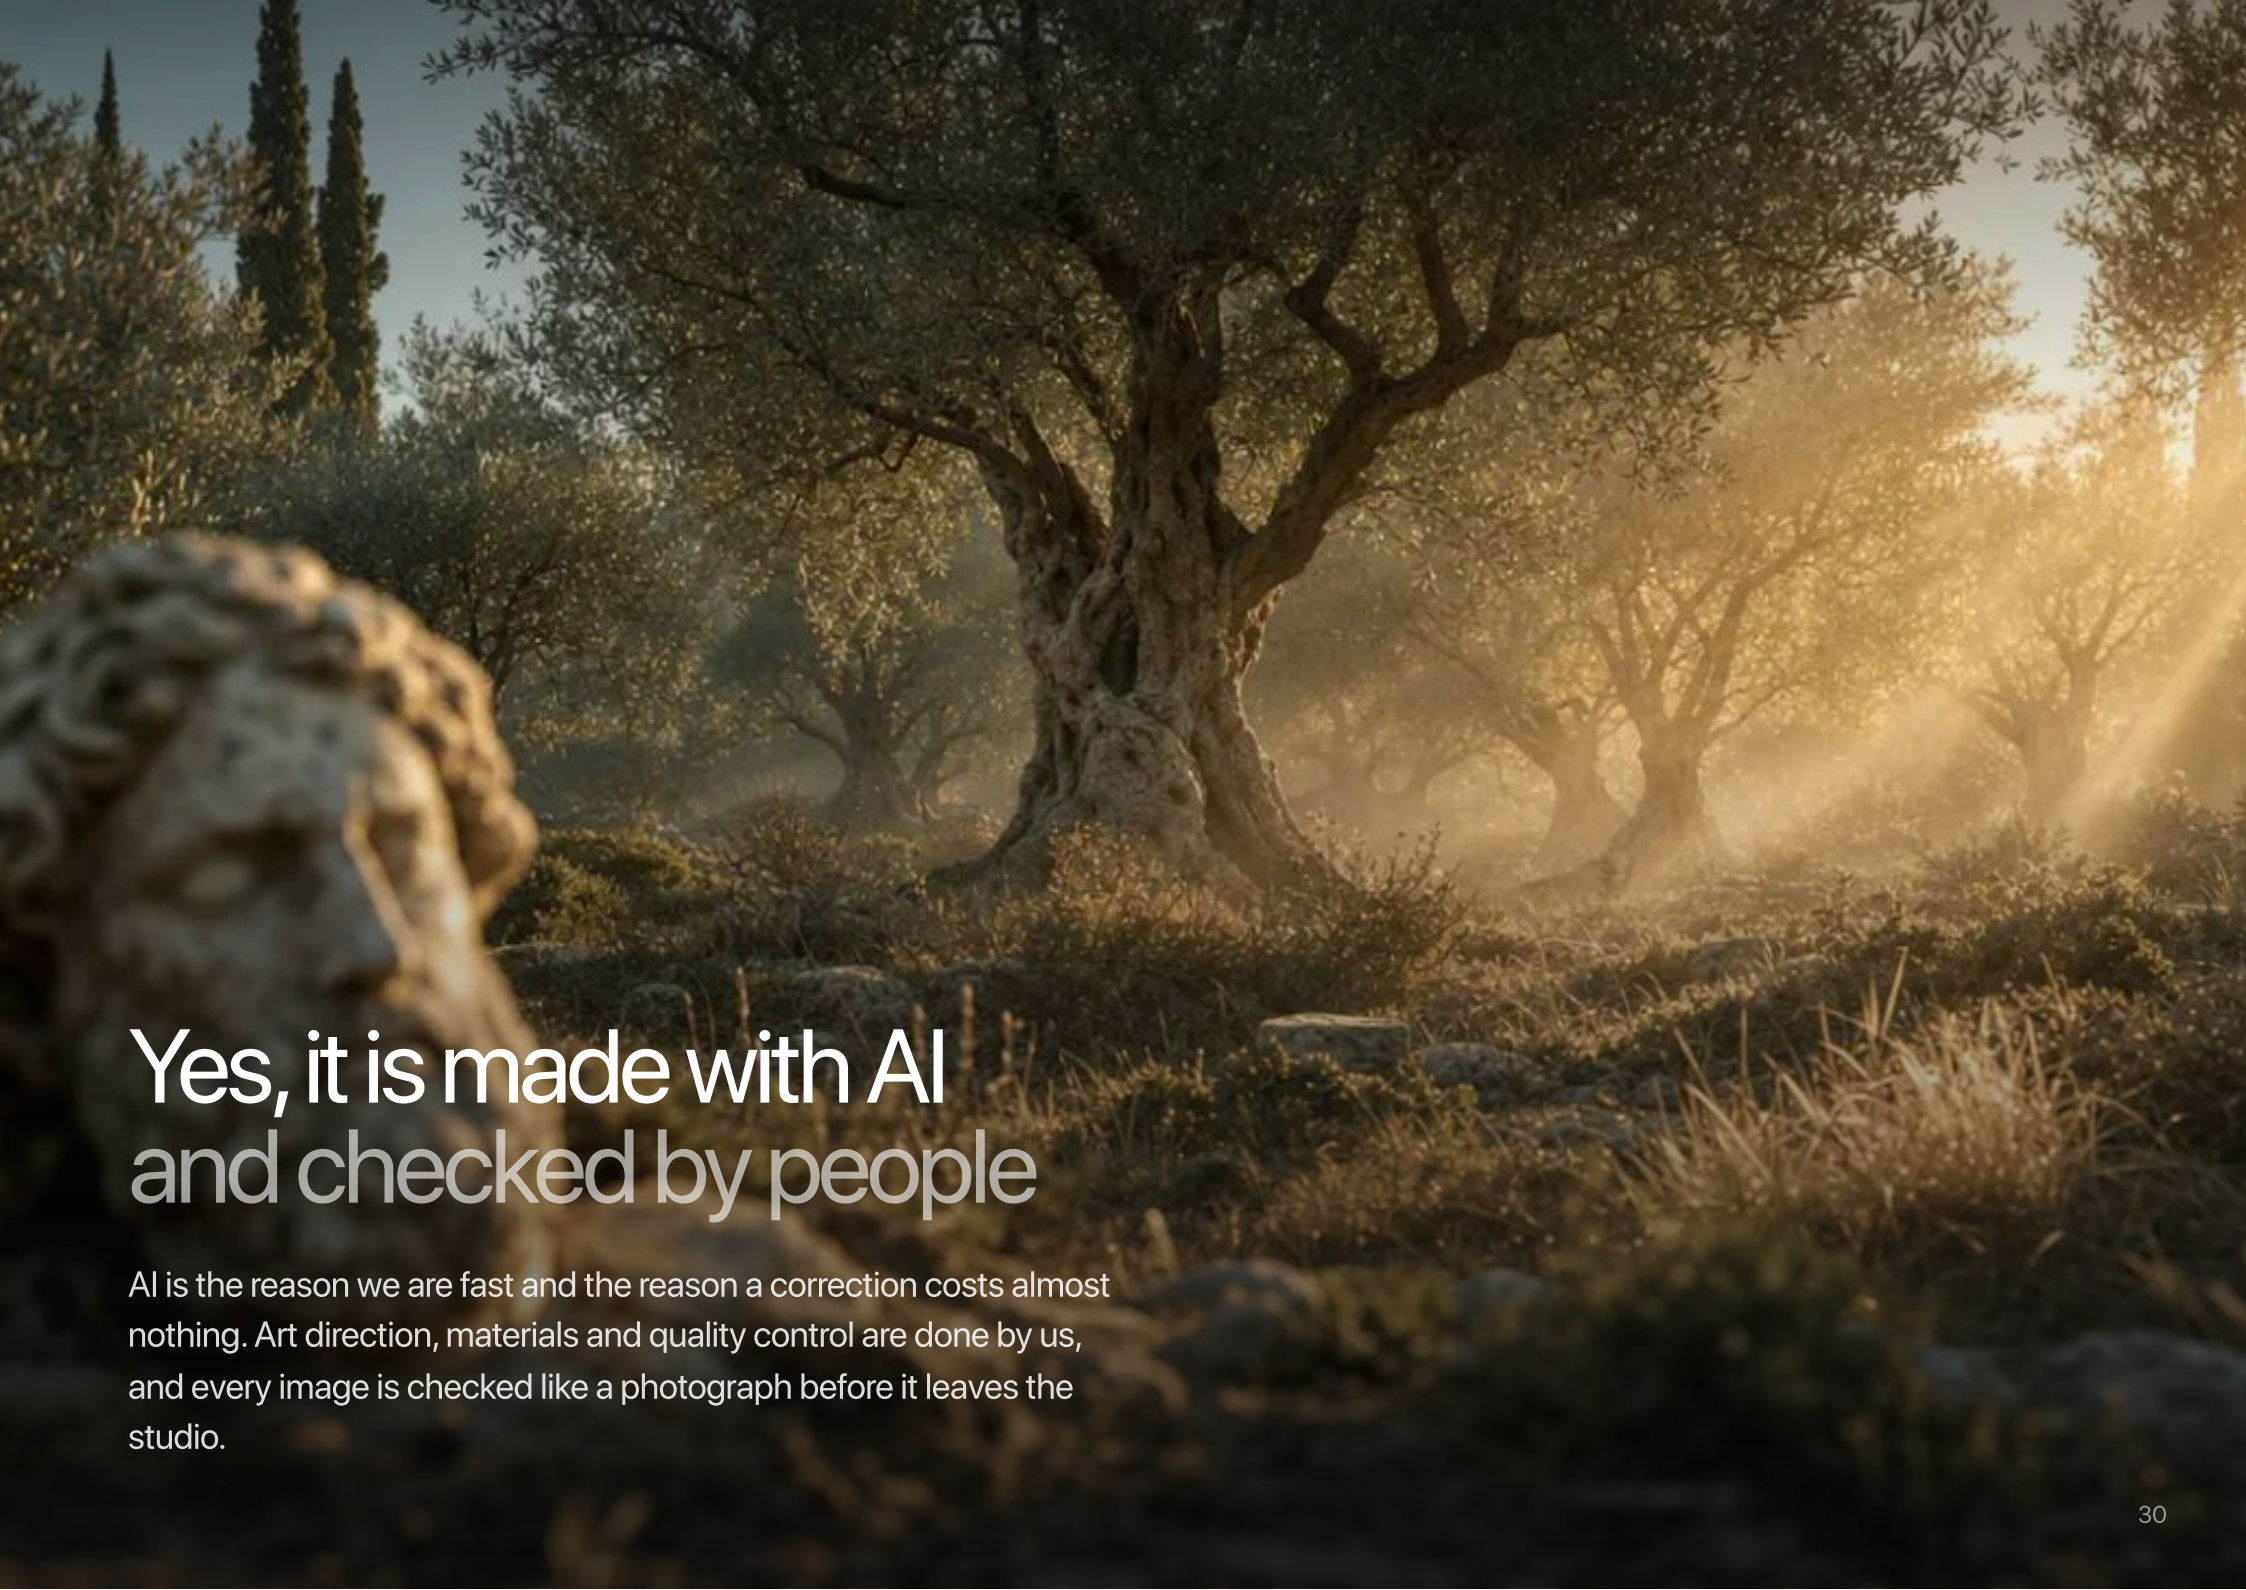

1–2
days for the first views

5
days for a whole house

1
week for a complete launch*

1
day for each round of changes

*Images and film. These are our usual delivery times. When several projects run at once they can take a few days longer, and we always confirm the delivery date before we start.

Yes, it is made with AI and checked by people

AI is the reason we are fast and the reason a correction costs almost nothing. Art direction, materials and quality control are done by us, and every image is checked like a photograph before it leaves the studio.

Images
new views from your plans

Views	Price*	Per view
1	€90	€90
10	€690	€69
20	€1,190	€60
30 Best value	€1,500	€50
12 a month**	€599 / month	€50

Every pack includes two rounds of changes and 4K images in every format you need, and from 10 views a free 10-second clip of the best view. Retouching a photo or a render you already have, like furnishing an empty room or changing light and materials, starts at €25.

**Monthly plan: 12 new views every month with a slot reserved for you and delivery in 48 hours. Minimum three months, then you stop whenever you like, and the views you don't use move to the next month.

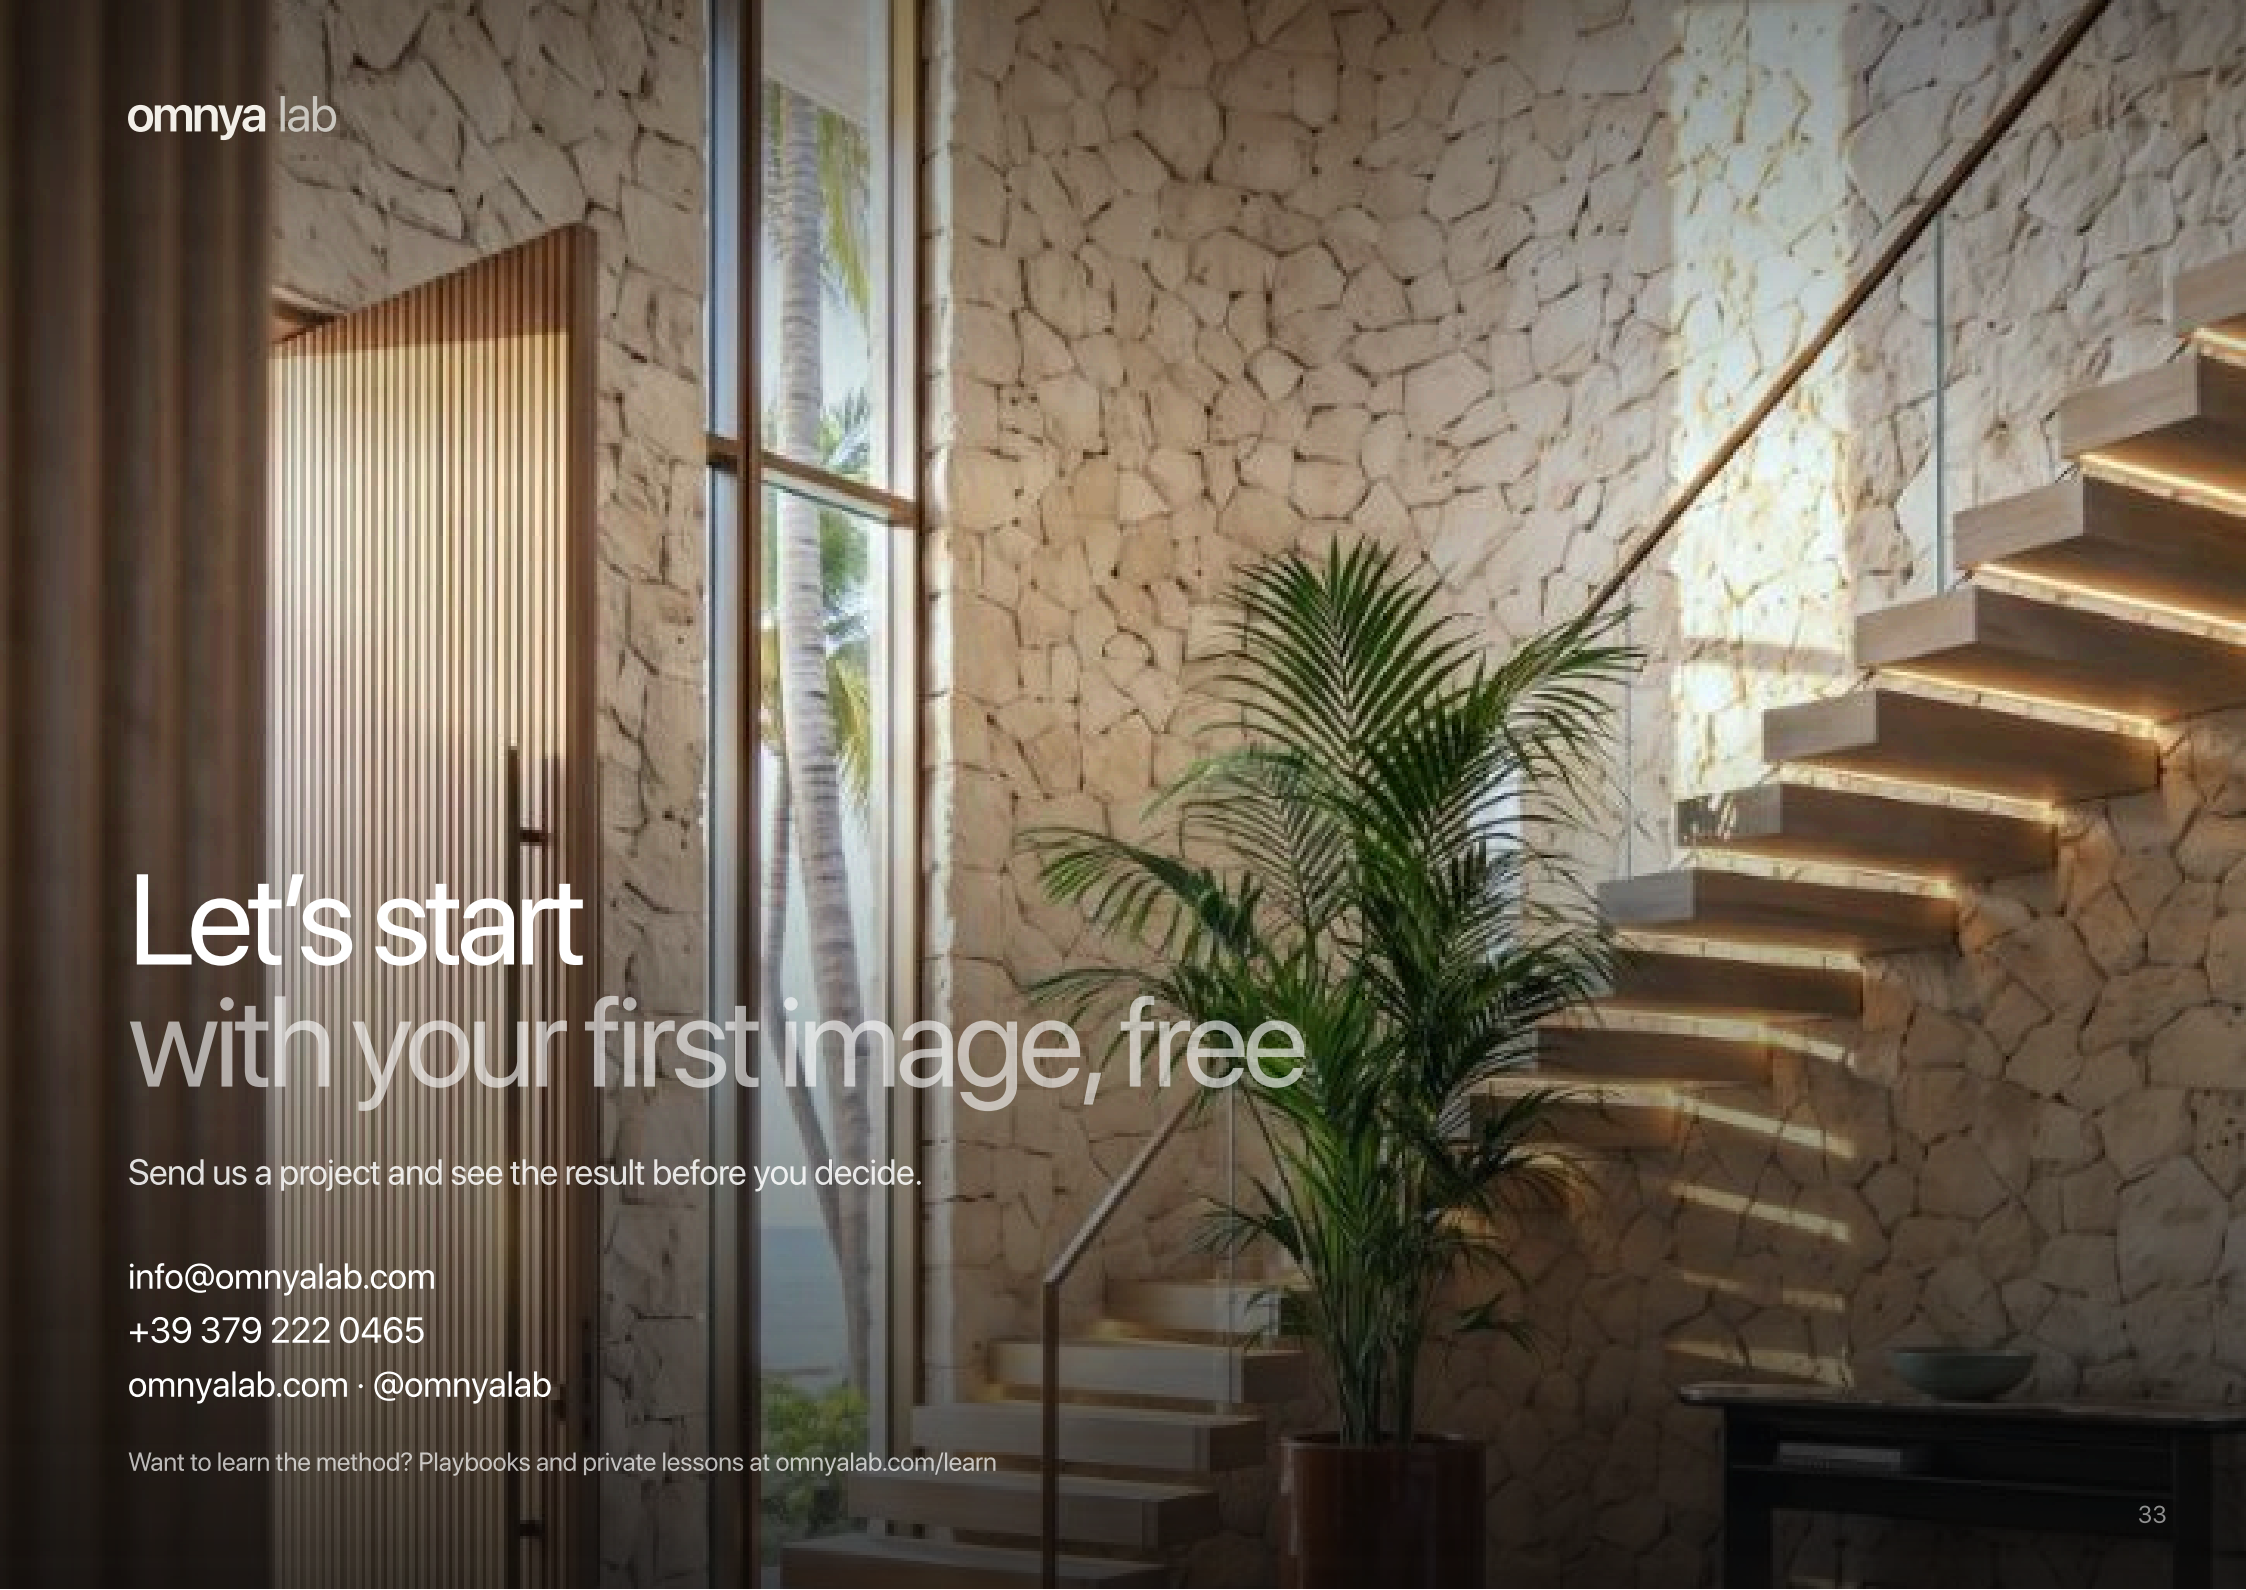

Films
prices by length

Length	Price*	Best for
30 s	€1,200	Reels and pitches
60 s Our pick	€2,200	Launch film
90–120 s	€3,900	Full launch film

Launch packages
images and film together

Package	Price*	What you get
Launch S	€2,900	8 images, 30-second film, 3 reels. In 5 days
Launch M Our pick	€4,900	15 images, 60-second film, 3 reels, presentation. In 1 week
Launch L	€8,900	25 images, 2-minute film, 6 reels, presentation. In 2 weeks

*Prices in euro, the same in every country, for standard work. 50% on confirmation, balance on delivery, VAT not applied. Films are made from the approved images or from the renders you already have, and music, editing and the reels for social media are always included.

Let's start
with your first image, free

Send us a project and see the result before you decide.
