

from your file
to the final picture

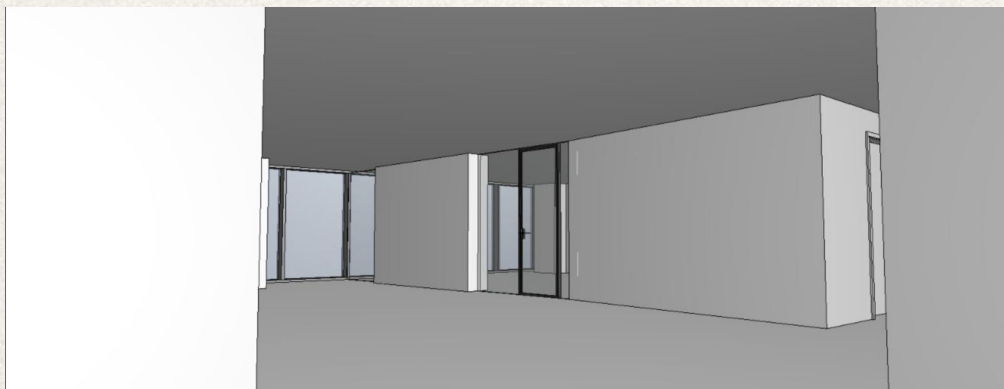

omnya lab

how we work

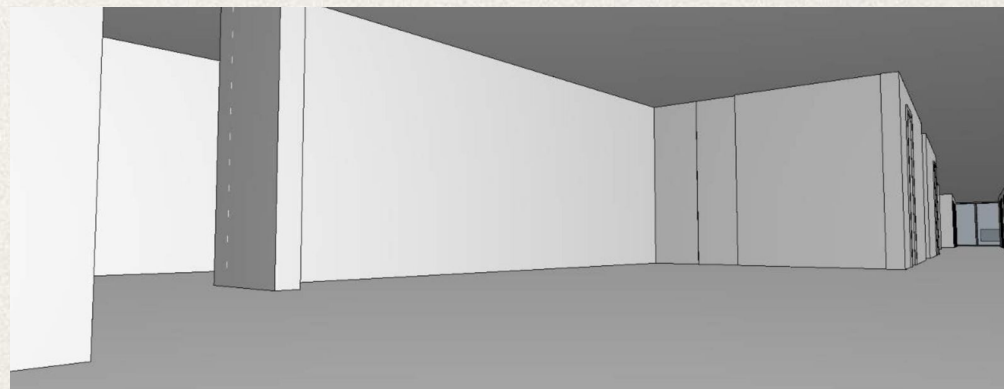

We start where you stop the geometry stays, the rest changes

You send us SketchUp, Revit, a rough 3D or a set of drawings.
Proportions and camera angles stay exactly as they are. We change materials, light and furniture, and we add people.

How a project works from your files to the final images

01

You send us your files

Floor plans, a 3D model, renders or site photos, plus any references you have. A short call is enough to get started.

02

We agree on the details

Before we start, we send you a short description of each view: materials, light and furniture. We begin only once you approve it.

03

First images and changes

You receive a few versions of each view and tell us what to change. We edit only what you ask for.

04

Delivery

You receive 4K images in the formats you need for web, social media and print. We do not sign them, so you can present them as your own.

What we make

images, films and virtual staging

01

Images

Photorealistic interiors and exteriors from floor plans, 3D models or photos, delivered in 4K.

02

Films

Videos from 10 to 90 seconds for social media, presentations and launches. Music, editing and colour grading are included.

03

Virtual staging

Send us a photo of an empty room and we send it back furnished, ready to be listed.

How long it takes in working days

1–2

DAYS FOR THE FIRST VIEWS

5

DAYS FOR A WHOLE HOUSE

2

WEEKS FOR A COMPLETE LAUNCH*

1

DAY FOR EACH ROUND OF CHANGES

*Images and film. These are our usual delivery times. When we have several projects running at once, they can take a few days longer. We always confirm the delivery date before we start.

Yes, it is made with AI and checked by people

AI is the reason we are fast and the reason a correction costs almost nothing. Art direction, materials and quality control are done by us, and every image is checked like a photograph before it leaves the studio.
