Selected work 2026

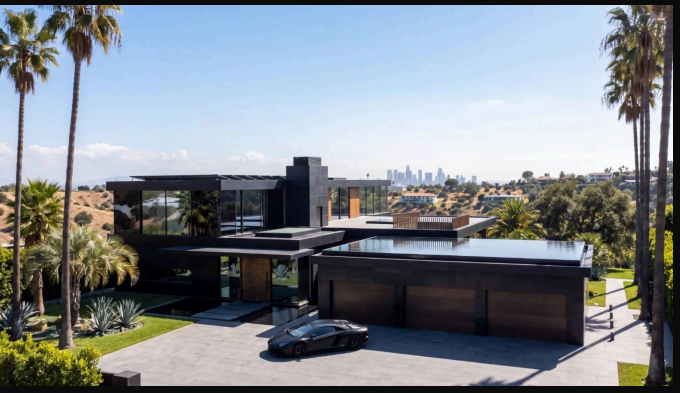

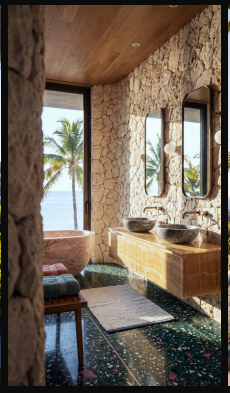

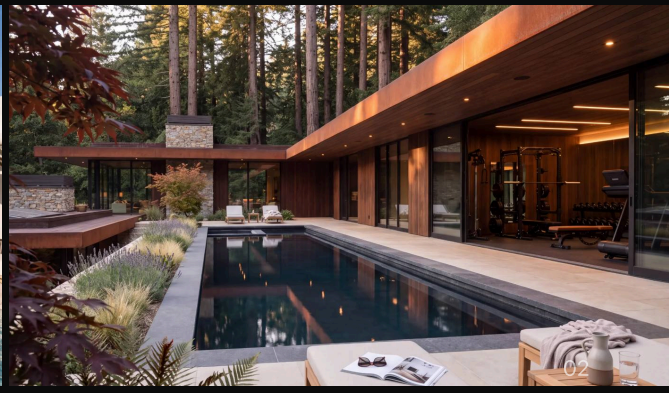

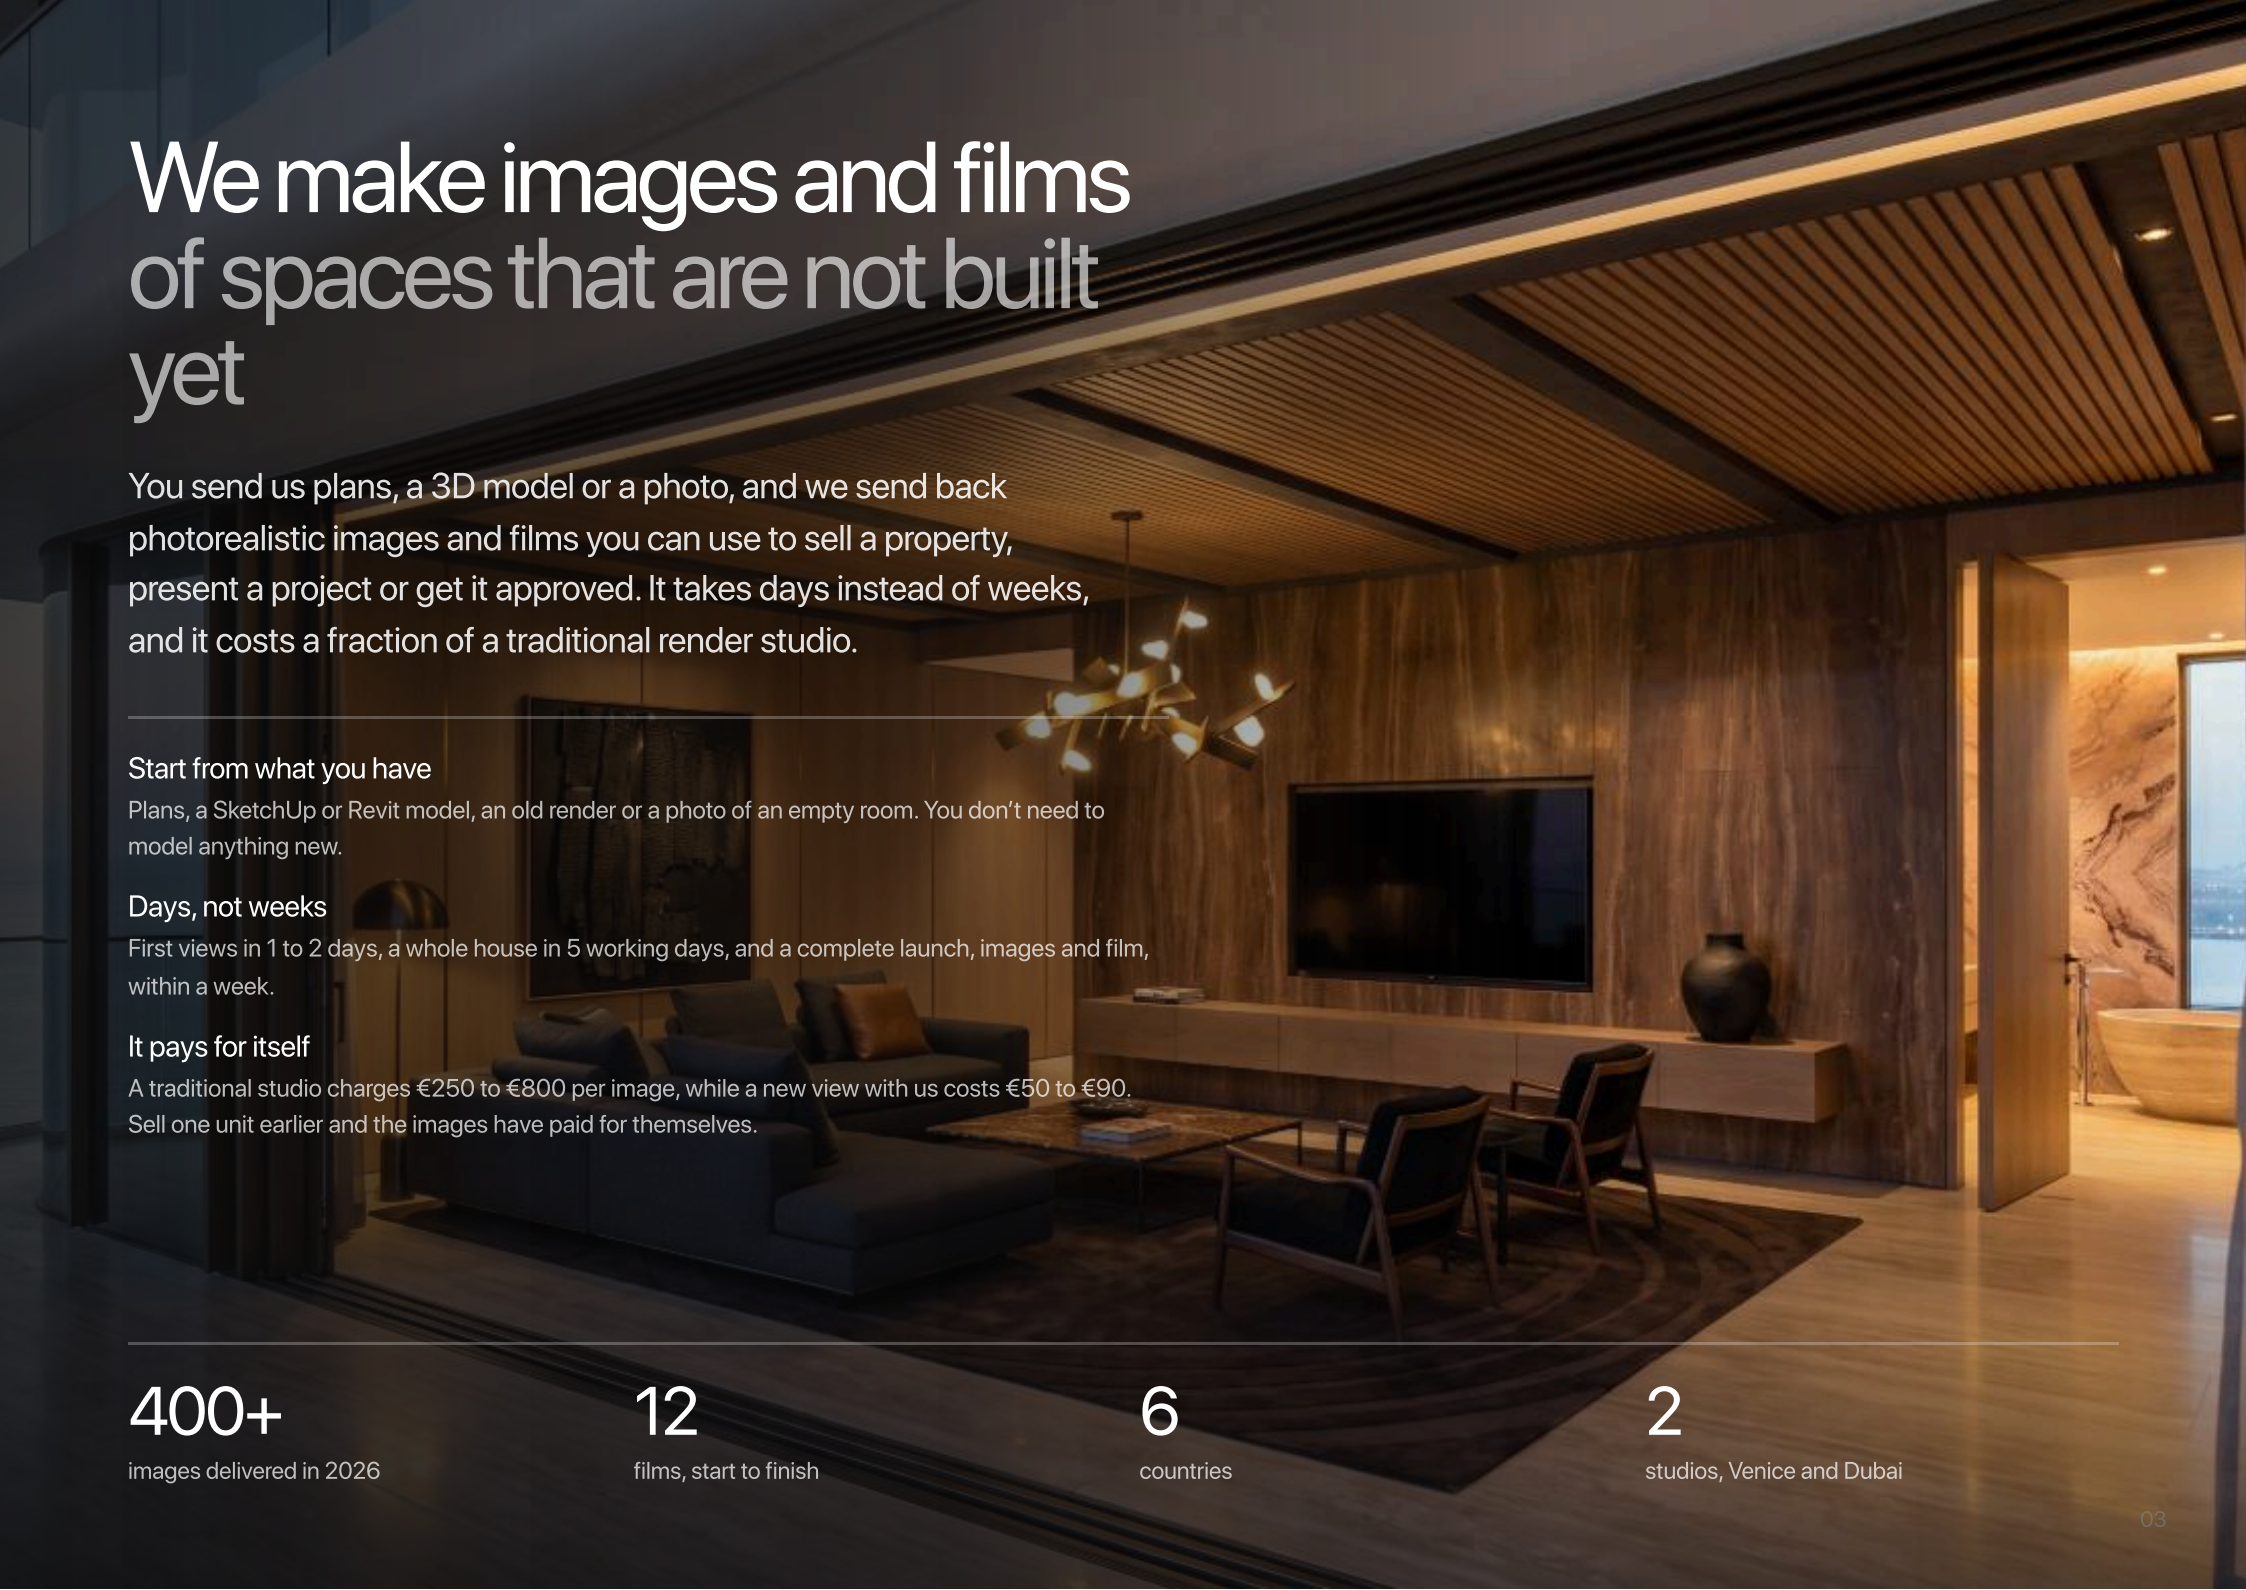

We make images and films of spaces that are not built yet

You send us plans, a 3D model or a photo, and we send back photorealistic images and films you can use to sell a property, present a project or get it approved. It takes days instead of weeks, and it costs a fraction of a traditional render studio.

Start from what you have

Plans, a SketchUp or Revit model, an old render or a photo of an empty room. You don't need to model anything new.

Days, not weeks

First views in 1 to 2 days, a whole house in 5 working days, and a complete launch, images and film, within a week.

It pays for itself

A traditional studio charges €250 to €800 per image, while a new view with us costs €50 to €90. Sell one unit earlier and the images have paid for themselves.

Samar Residences
Dubai Marina, UAE

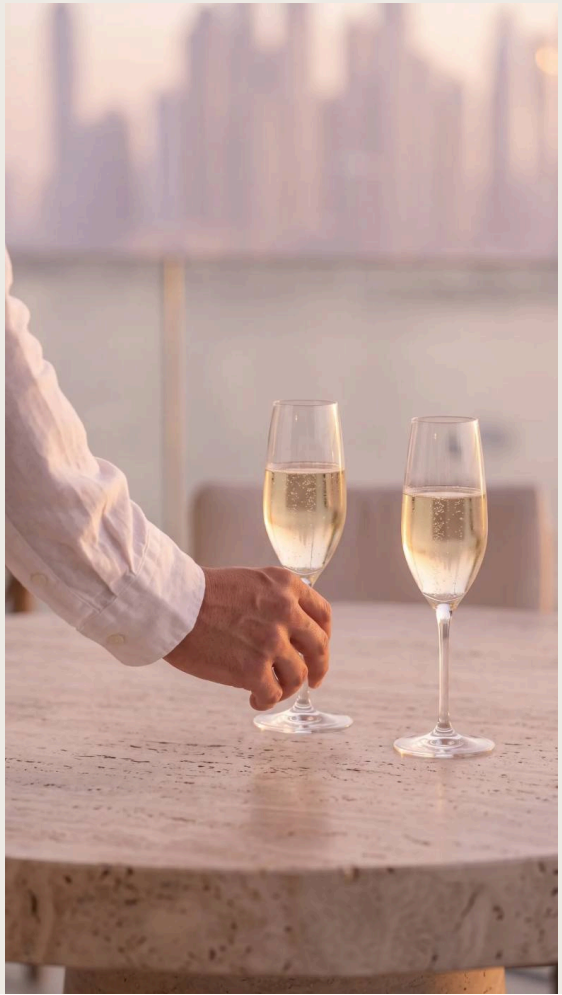

A residence on the water in Dubai Marina, told as a short film: the tower at sunset, a boat across the marina, an evening inside. Twenty-two images, a 46-second film and the sales website, made with AI.

a tower you can walk into before it’s built

For SAMAR we also built the sales website: you pick a floor on the tower, fly into the apartment and walk from the living room to the bathroom, all made from our own films.

The Townhall
Vidor, Prosecco Hills, Italy

A project to turn the former town hall of Vidor into a hotel, with a new pavilion for the spa, the gym and events. We started from site photos and drawings and delivered the images and a film.

Developer Pitch
Seven towers in the UAE and Miami

Seven residential towers made photoreal from the developers' own material, to show each of them what their launch could look like.

Seven towers
one look per developer

Penthouse Dubai
Downtown Dubai, UAE

A penthouse in Downtown Dubai, shown room by room before any furniture was ordered, with images and a launch film. Interior design by Davide Algranti.

DANA Beach House
Our own house

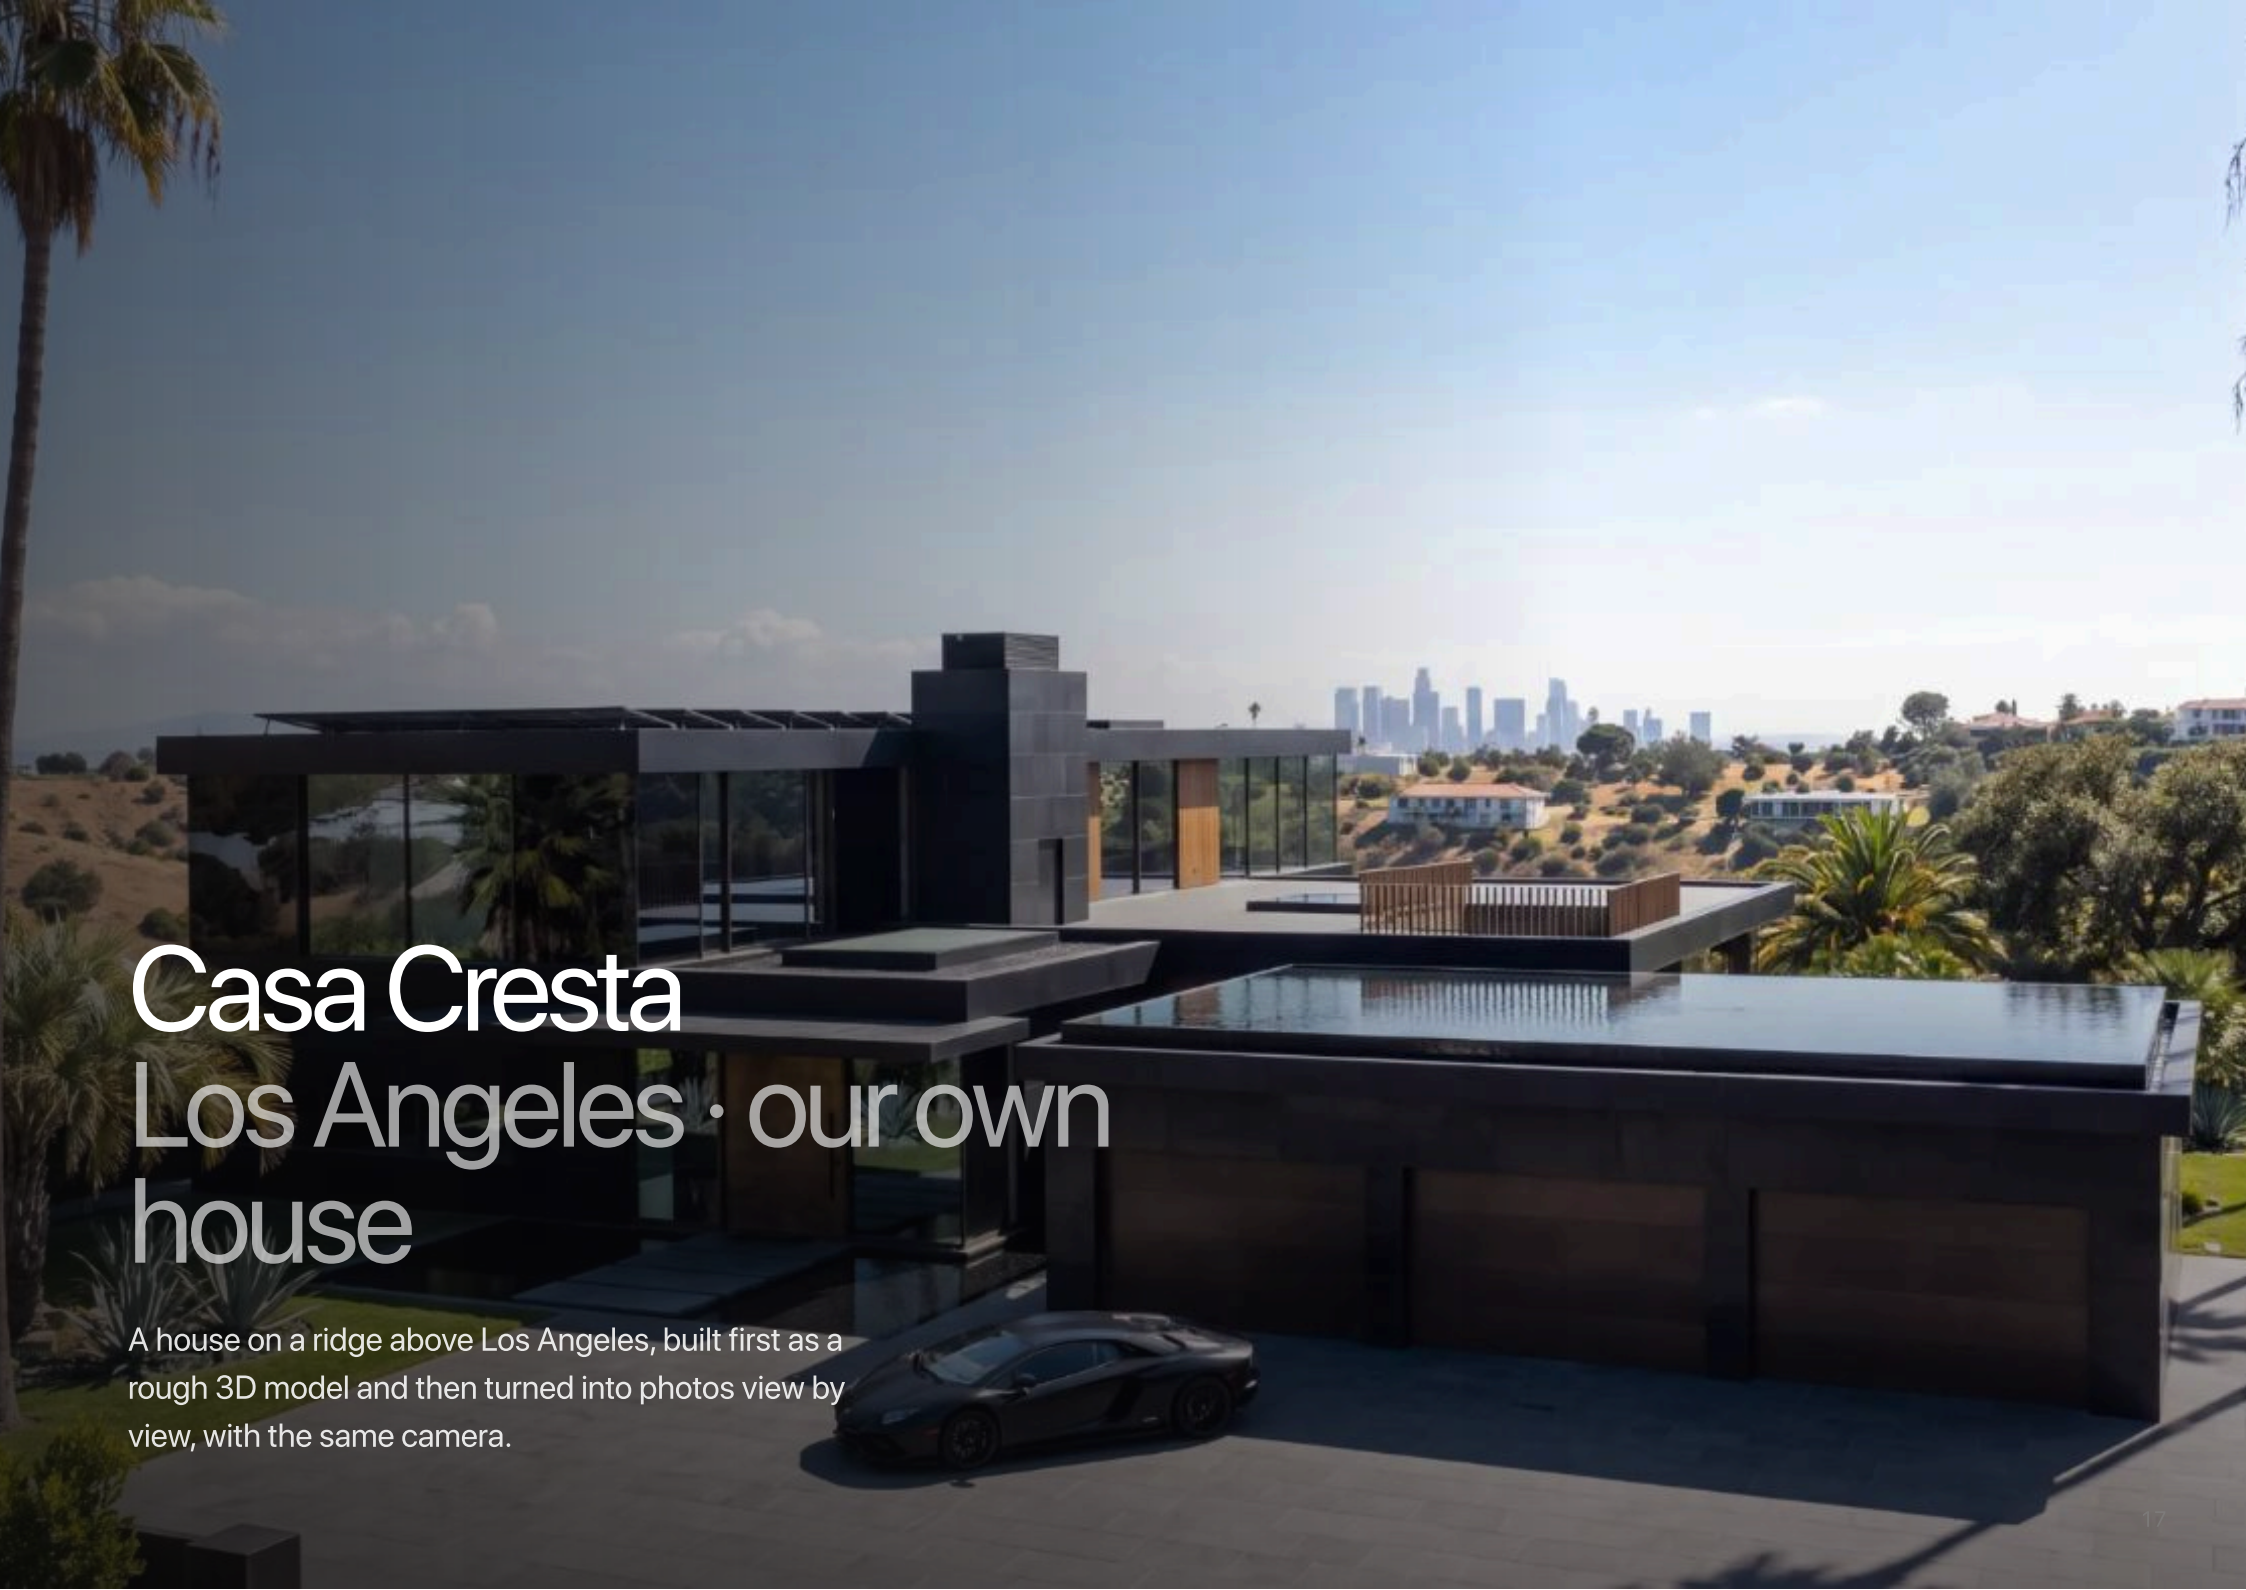

DANA is the house we use as our quality benchmark: coral stone, ipe and bronze, with the same light from the pool to the dressing room.

Eighteen views
one beach house

Casa Cresta
Los Angeles · our own house

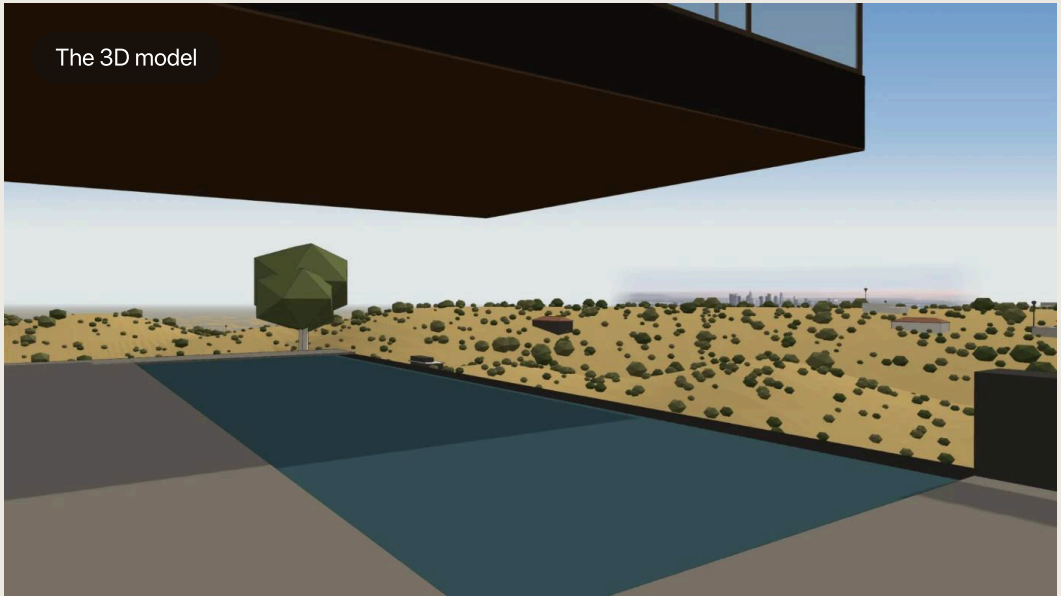

A house on a ridge above Los Angeles, built first as a rough 3D model and then turned into photos view by view, with the same camera.

We start where you stop
the geometry stays, the rest changes

You send us SketchUp, Revit, a rough 3D or a set of drawings. Proportions and camera angles stay exactly as they are, while we change materials, light and furniture and add the people.

Hygeia Grove
Corfu, Greece

A wellness resort in Corfu. With €1,860 of images and a 90-second film, made before construction started, the architect brought home almost €100,000.

A resort sells on the day you would spend in it

Breakfast, the spa, the fire at night: we showed what a stay feels like, not just the rooms.

Forest House
Private residence

A private house among redwoods. Fourteen views, from the aerial shot to the walk-in closet, with the same materials and light in every room.

Fourteen views
one consistent house

Elvira
Business Bay, Dubai

A business centre on the 21st floor of the Binary Tower.
Twenty views of the whole floor, all in the same light.
Design by Davide Algranti.

How a project works
from your files to the final images

01

You send us your files

Floor plans, a 3D model, renders or site photos, plus any references you have. A short call is enough to get started.

02

We agree on the details

Before we start, we send you a short description of each view, with materials, light and furniture, and we begin only once you approve it.

03

First images and changes

You receive a few versions of each view and tell us what to change. We edit only what you ask for.

04

Delivery

You receive 4K images in the formats you need for web, social media and print. We don’t sign them, so you can present them as your own.

How long it takes
in working days

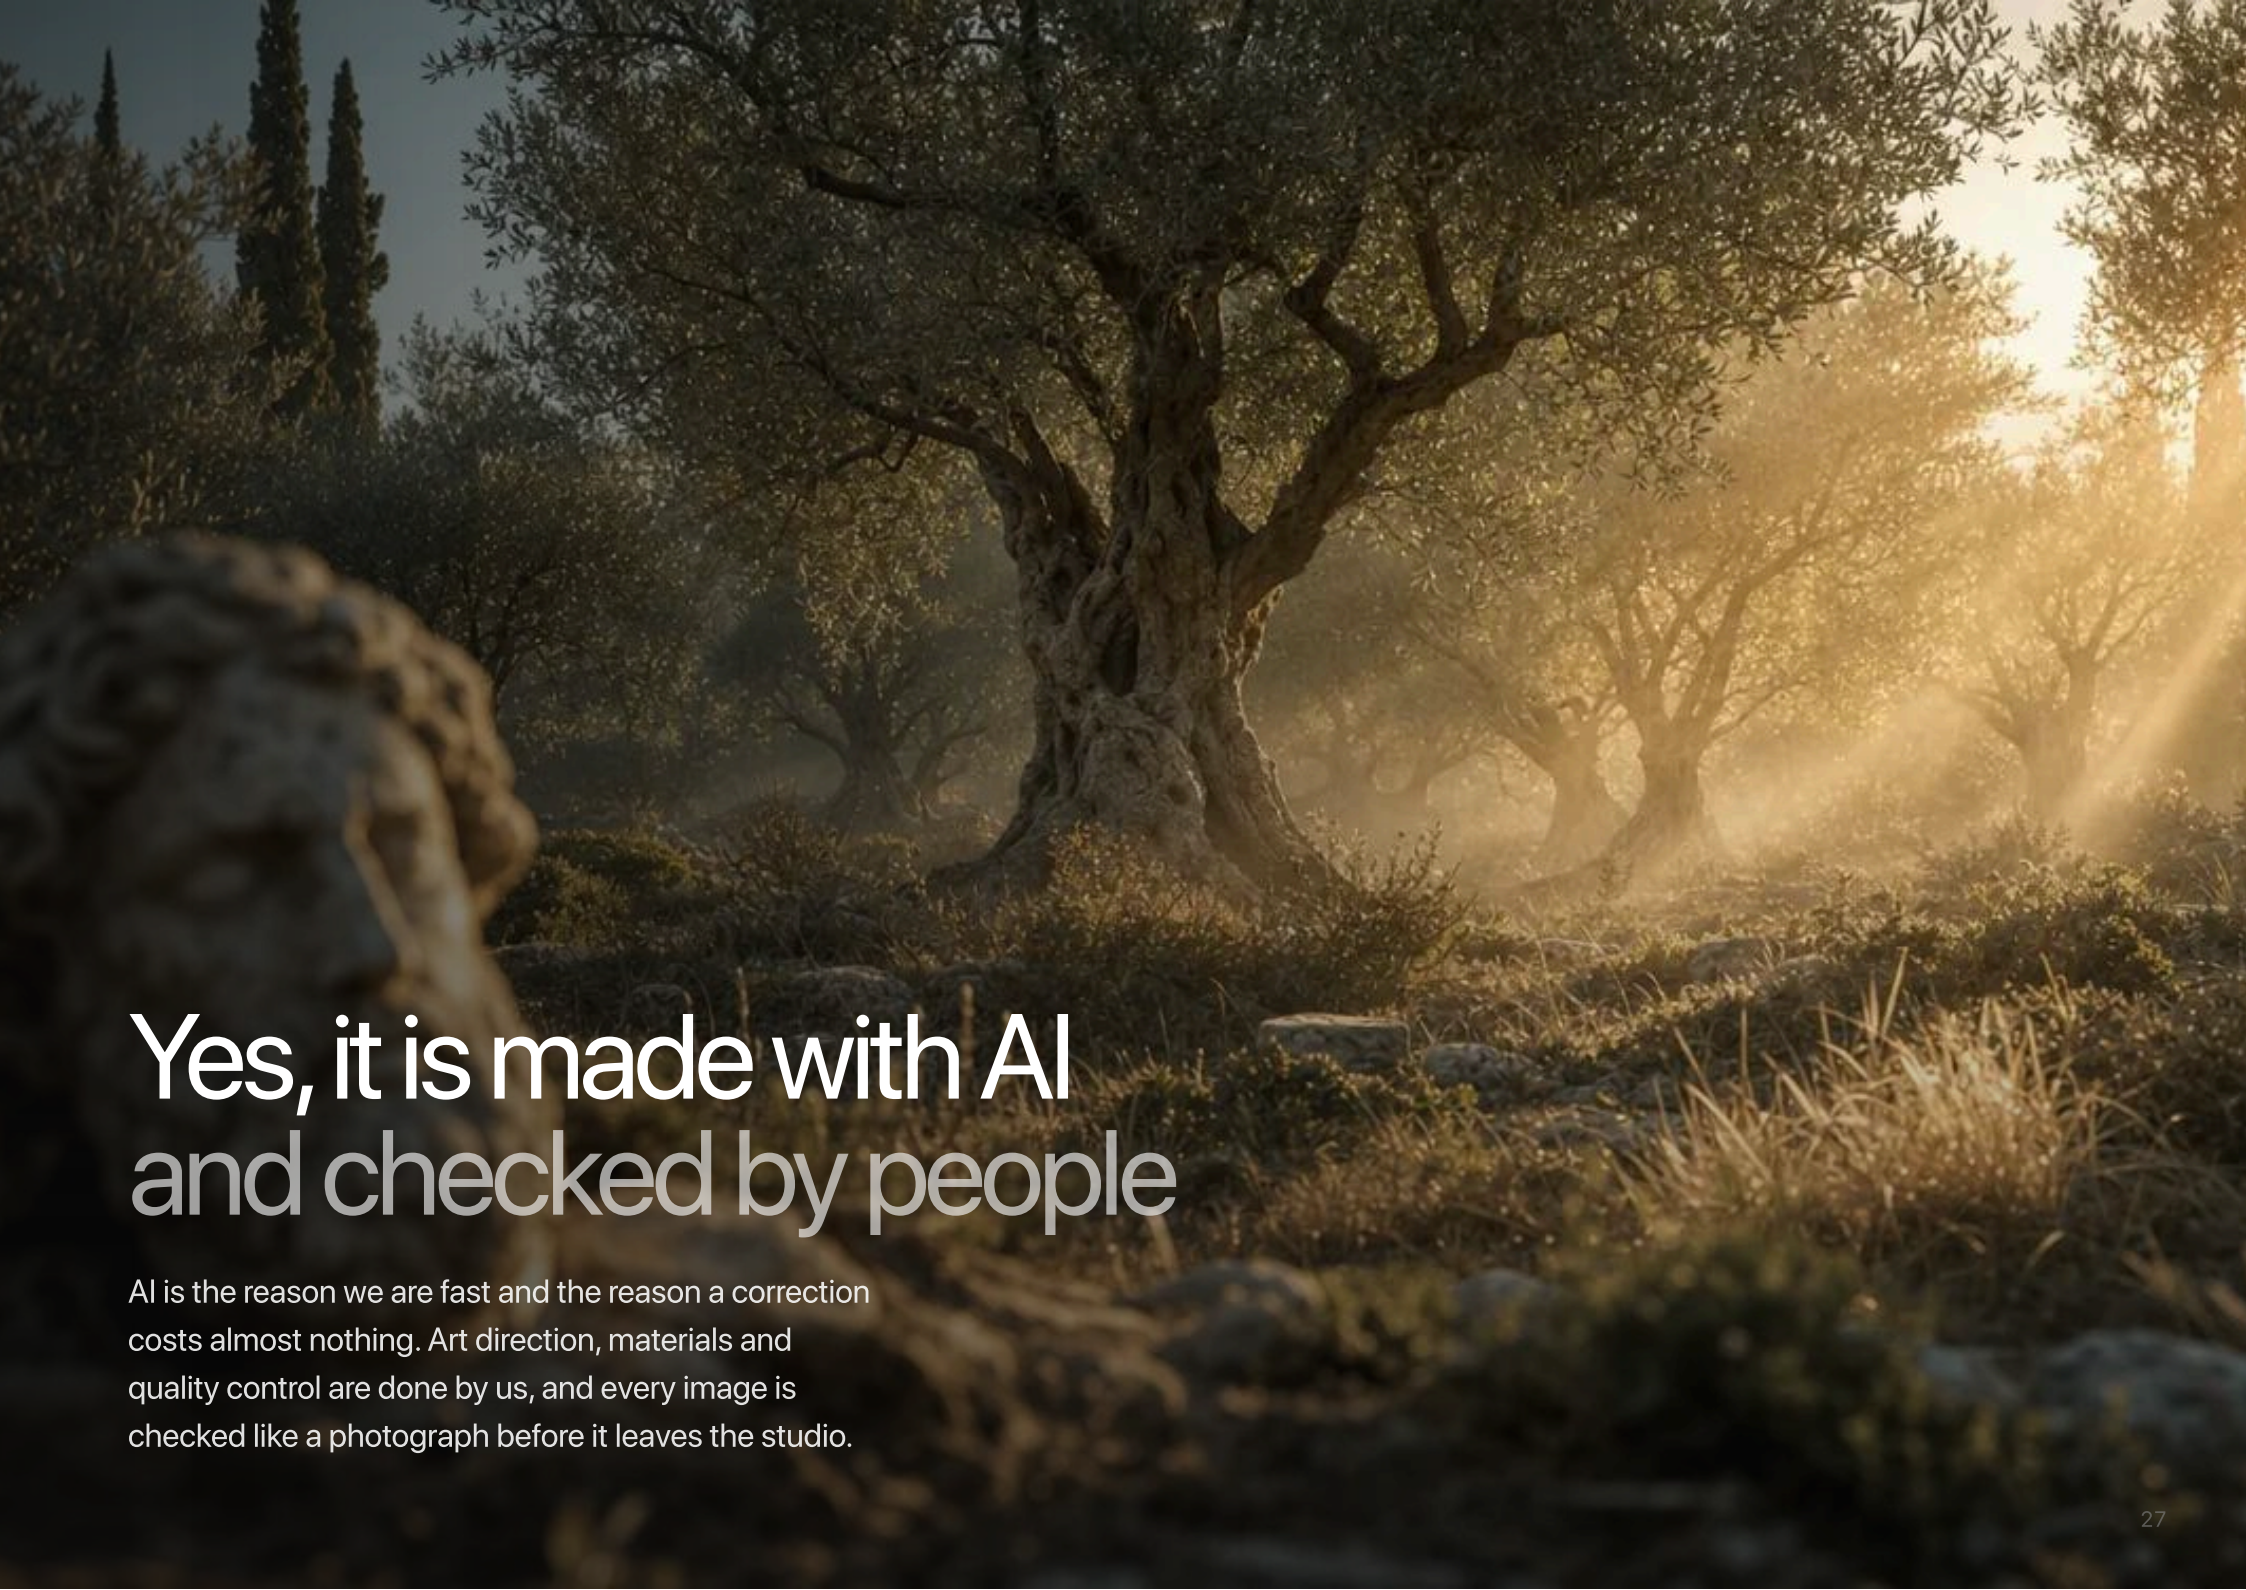

1–2
days for the first views

5
days for a whole house

1
week for a complete launch*

1
day for each round of changes

*Images and film. When several projects run at once it can take a few days longer, and we always confirm the delivery date before we start.

Yes, it is made with AI and checked by people

AI is the reason we are fast and the reason a correction costs almost nothing. Art direction, materials and quality control are done by us, and every image is checked like a photograph before it leaves the studio.

Images
new views from your plans

Views	Price*	Per view
1	€90	€90
10	€690	€69
20	€1,190	€60
30 Best value	€1,500	€50
12 a month**	€599 / month	€50

Every pack includes two rounds of changes and 4K images in every format you need, and from 10 views a free 10-second clip of the best view. Retouching a photo or a render you already have, like furnishing an empty room or changing light and materials, starts at €25.

**Monthly plan: 12 new views every month with a slot reserved for you and delivery in 48 hours. Minimum three months, then you stop whenever you like, and the views you don't use move to the next month.
